

07_Calibre-web

calibre-web-eyrolles

[Calibre-web](https://github.com/janeczku/calibre-web) is a web app providing a clean interface for browsing, reading and downloading eBooks using an existing Calibre database. It is also possible to integrate google drive and edit metadata and your calibre library through the app itself. This software is a fork of library and licensed under the GPL v3 License.

Image	lscr.io/linuxserver/calibre-web:latest
Version	0.6.26-ls383
Etat	Up 9 hours (healthy)
Compose project	calibreweb_automated
Reseau	calibre_network
Source	https://github.com/linuxserver/docker-calibre-web

Ports

Hote	Container	IP
8214	8083/tcp	0.0.0.0
8214	8083/tcp	::

Volumes

Source (hote)	Destination	Type	Mode
/home/debian/livres/Eyrolles	/books	bind	rw
/home/debian/docker/calibre-web-automated/config	/config	bind	rw

Integration Claude Code — API directe

Statut MCP	Pas de MCP — API directe possible
Note technique	Interface OPDS disponible pour parcourir la bibliothèque. API REST limitée. Pas de MCP configuré.

Ce que nous pouvons faire ensemble

- Parcourir la bibliothèque Eyrolles via le catalogue OPDS
- Potentielle automatisation d'ajout/export de livres via l'API
